SUMMARY

Full Stack Developer and Designer passionate about building experiences that combine technology, creativity, and purpose. Currently working as a freelance developer, creating modern web applications, intuitive user interfaces, and visual identities that bring ideas to life.

STACKS

TypeScript, JavaScript, React, Next.js, Vue.js, React Native, Expo, Angular, Tailwind CSS, NativeWind, Shadcn/UI, React Flow, Skia, Styled Components, Sass/SCSS, MUI, Angular Material, Zod, NestJS, GraphQL (Schema First), tRPC, MikroORM, PostgreSQL, Neo4j, MongoDB, Vercel AI SDK, LangChain, WordPress API, OAuth2, Chatwoot, MCP, Docker, AWS, SST, Vercel, Turborepo, pnpm, n8n, Git, GitHub Projects, Azure DevOps, Jest, Vitest, Storybook, Figma, Rive, Adobe Illustrator, Adobe Photoshop, Canva, Scrum.

PROFESSIONAL EXPERIENCE

VAZ INNOVATION, *Full Stack Developer, Illustrator and Animator*

February 2026 – July 2026

Worked on the full-stack development of AI-powered web applications in a monorepo environment. Contributed to building the first Brazilian web platform with support for the MCP protocol, developing GraphQL APIs, tool integrations, and LLM-powered features using the Vercel AI SDK, including response streaming, tool calling, and workflow automation. Also contributed to frontend development, interactive animations, cloud deployments, and technical solution design alongside the engineering team.

LISBOM, *Full Stack Developer, Illustrator and Animator*

October 2024 – October 2025

Developed an AI-powered mobile and web platform for Japanese language learning, responsible for generating personalized learning paths and educational experiences. Worked across the full stack, building mobile and web interfaces, browser extensions, backend integrations, and AI-powered features such as an educational chatbot and intelligent learning workflows. Also contributed to automated testing, component documentation, and the evolution of the product architecture in a monorepo environment.

FREELANCER, *Full Stack Developer*

December 2024 – Present

Designed and developed landing pages, web applications, and visual identities for companies and content creators. Managed the entire project lifecycle, from requirements gathering and solution design to development, UI/UX design, animation, branding, and final delivery, maintaining direct communication with clients throughout the process.

MOSTEN, *Full Stack Developer Intern*

June 2024 – December 2024

Contributed to the development of web applications with a focus on frontend engineering and API integrations. Implemented responsive interfaces, maintained existing features, participated in requirements analysis, testing, and version control, while actively collaborating in Scrum ceremonies and the continuous improvement of the product.

EDUCATION

ASSOCIATE DEGREE IN SYSTEMS ANALYSIS AND DEVELOPMENT

February 2023 – December 2025

Praia Grande Faculty of Technology (FATEC)

TECHNICAL DEGREE IN COMPUTER SUPPORT

July 2021 – December 2022

São Paulo State Technical School (ETEC)
